

Timothy D. Christ, M.B.A.
Associate Director - Subrogation
CCC Intelligent Solutions
210.632.4571 | tchrist@cccis.com

Mr. Christ has over 20 years' executive leadership and operations experience that spans both the InsurTech and FinTech landscapes. He is the Associate Director of Subrogation with CCC, working with insurers to understand their current claims and subrogation processes, develop future strategies, leverage technology to enable faster claim adjudication, and enable better outcomes for both insureds and insurers.

His insurance claims background involves investigating small and large insurance claims all over the world. He has deployed on multiple catastrophe claims assignments, including Cancun (Hurricane Wilma), New Orleans (Hurricane Katrina), New York (Hurricanes Irene & Sandy), Calgary (flooding), and more. His extensive forensic engineering experience has included many fraud, subrogation, and other complex liability situations in over 20 countries.

He executed two successful turnarounds of Rimkus Consulting Group offices that were losing money and returned them to profitability. He is the founder and retired CEO of LWG Consulting Mexico, a forensic engineering company he built based in Mexico City that served all Central/South America. He also built 4 other business units from scratch into internationally-recognized and profitable operations. He was part of the ownership team that successfully sold LWG Consulting to Private Equity in 2015. He has worked as an Advisor/Management Consultant to a number of insurers, insurance vendor partners, and others.

He speaks on insurance, leadership, strategy, business operations, technology, and forensic engineering topics both nationally and internationally. He published a book, *Becoming A World-Class Expert: The Business of Forensic Engineering* in January 2018, and his second book, *Outgrowing QuickBooks* in 2020. He has a tireless devotion to growing businesses and helping people. He has served as an Adjunct Professor for the Academy of Insurance, the University of Texas-Brownsville, Park University in San Antonio, and St. Edwards University in Austin. He is active in his church, Concordia Lutheran in San Antonio. His wife, Betty, is a 25-year Valero Energy Tax Accountant in their Motor Fuels practice and they have an 8-yr old, Kaleb that is highly involved in the select flag football, select basketball, select baseball, and golf.

Recent presentations include:

- Over 25 CPCU chapters, RIMS chapters, and claims associations in 2021
- 5-time speaker at the International Risk Management Institute (IRMI) Annual Energy Conference
 - Largest webinar ever hosted by PropertyCasualty360 with over 600 registrants
 - 3-part series on IoT in Insurance to the Cleveland/Cincinnati CPCU Chapters
