Suzanne Cormier has been with The Hartford since 2014 and is currently a team leader in the Catastrophe Claims Operation. She began her career as a personal lines property adjuster and advanced into an estimator role in the property damage assessment group. In this capacity, she was selected to pilot virtual full-file handling of personal lines claims on a national scale. In 2021, she transitioned to the Catastrophe Claims Operation, where her work included handling claims as a personal & commercial property adjuster. She is currently leading a team of personal lines catastrophe adjusters.

Prior to her career in insurance, Suzanne spent nearly a decade in commercial mechanical contracting. She supported a large team which specialized in new construction including fire protection systems, medical/surgical specialty systems, heating, ventilation, refrigeration, and industrial plumbing.

Suzanne has a strong passion for giving back to her community and is an enthusiastic supporter of United Way Women United. She is an active member of Women United's Leadership Council and Signature Events Steering Committee, acting as Chair of this year's Red, White & Chocolate fundraising event. Suzanne is also member of APIW, Inc. (Association of Professional Insurance Women). Through these and other channels, she mentors young professionals in insurance and adjacent industry, as well as local small business owners. She is co-presenting original content, "Catastrophe with Compassion" at the 2024 PLRB Claims Conference & Insurance Services Expo in Boston.

Suzanne lives in Ellington, CT with her husband Mike and their German Shepherd Willow. They have a small yet quickly growing homestead farm. In her spare time, she loves to cook, and is a connoisseur of donuts! Together they enjoy spending time at their family cabin in NH, on the lake and in the woods, bird watching and relaxing.
