

PLRB 2023 CLAIMS CONFERENCE
March 19-22, 2023 Orlando, Florida

PRESENTATION: TOP SECRET: Privacy Claims and Liability Insurance Coverage Issues
PRESENTER: Daniel I. Graham, Jr., Nicolaides Fink Thorpe Michaelides Sullivan LLP

SPEAKER BIO

Dan, a founding partner in his firm, assists his insurance company clients in appreciating and navigating the complex coverage issues that intellectual property infringement, unfair business practice, and privacy-related claims present.

He has represented his clients' interests before state and federal courts nationwide, at both the trial and appellate level. In doing so, Dan has helped create law addressing the scope of insurance coverage in the context of emerging technology-related and privacy-related disputes. While Dan focuses his practice on intellectual property and cyber-tort related claims, he has also successfully represented his clients in other subject areas, including bad faith and primary and excess disputes.

In addition to his litigation practice, Dan is a well-regarded speaker whom clients and bar associations often call upon to speak on technology-related and privacy-related insurance coverage issues. The Defense Research Institute (DRI), the Journal of Reinsurance, the Illinois Institute of Continuing Legal Education, and the Chicago Bar Association have all published Dan's articles and training materials.

Dan is an active member of DRI's Insurance Law Committee and is a former director of the Chicago Bar Association's Young Lawyer's Section and co-chair of the Chicago Bar Association's YLS Insurance Coverage Committee. Dan has been recognized by Leading Lawyers Network, Chambers USA, Best Lawyers, and Super Lawyers magazine.
