

Meg McCarthy
AFICS
West Coast Large Loss Property Claim Manager II

Meg began her career with State Farm Insurance in 2005 on the National Catastrophe Team. She worked on the CAT team for two years before then transferring to Travelers Insurance downtown Chicago as a Senior Property Adjuster. There she was a multi-line adjuster for three years until moving to Country Insurance where she worked for the next eight years as Senior Property Adjuster II.

In June of 2017 she transitioned to a Large Loss Adjuster at American Family Insurance. After working in that position for a year she became the manager of the Large Loss team in the Midwest. In 2019 she was asked to transition to the East coast and build out the Large Loss program for AFICS in the East. She spent the next year hiring and training two new Large Loss teams on the East Coast. After those teams were established, she then transitioned to the West Coast to take over the management out there and manage the AFICS Large Loss Teams. Currently she manages the West large loss teams for AFICS handling WA, OR, CA, NV, and ID. She has enjoyed an 18 year career in property claims.
